Session # 201, Health Literacy Skills: A New Focus

Presenter: Rima Rudd, Maricel Santos

Implications for Practice:

- First introduce as a problem solving activity instead of topic (skill based vs. content based)
- Medical paperwork samples – chart sheet for students to take with themselves
- Red cross certificate for ESL students
- America Corps
- American Heart Association
- Can incorporate and collaborate with non-profit organizations

Implication for Policy:

- Need collaborative which provides – not AE's job to be health professionals
- Can create a “glut” of people trying to access a service that health system can't support
- Professional development training
- Where is universal health care!!!!???
- Field trips
- Funding/support for professional development study circles
- Training with healthcare professionals public health nurses
- Privacy issues on student health issues

Implications for Further Research:

- Further research on resistance of hospitals to release health forms to adult education Program and community colleges for students to practice completing
